A MESSAGE FROM AARON

While in high school, I played football and was active in the Naval R.O.T.C. Upon graduation, I looked forward to college, but circumstances did not allow me to attend at that time.

In 2008 my kidneys failed and I began dialysis. In 2012, with the encouragement of my dialysis staff, I decided to enroll in college.

With the help from the *DSF* grant, I was able to continue my education. I really appreciate what *DSF* has helped me achieve.
