OUR FIRST GRADUATE!
JORDAN, Bachelor's Degree in Advertising from the University of Texas

"The DSF Grant helped me ease the financial burden that dialysis, school and living on my own entail. It was hard for me to hold a job, take 15 hours in school, do dialysis and constantly worry about the financial burden of paying back loans. This grant eased the financial burden."

AARON, Bachelor's Degree in Mass Communication at Clark Atlanta University in Georgia - "In '08 my kidneys failed and I began dialysis. In '12, with the encouragement of my dialysis staff, I enrolled in college. With the help from the DSF grant, I was able to continue my education. I really appreciate what DSF has helped me achieve."

CHELSEA, Bachelor's Degree in Human Development at Colorado State University in Colorado - "I am so thankful for this scholarship because it has allowed me to stay in school while managing my treatments. I never thought I would be able to be as involved and dedicated to school as I have been while on dialysis, but it is the generosity of organizations like DSF that make this possible."

JESSICA, Bachelor's Degree in Nursing at Broward Community College in Florida - "It is such a blessing to have an organization like DSF that cares so much for dialysis patients. They dedicate their time, money and energy to make our lives a little easier. I appreciate everything you have done for me."

RICHARD, (Deceased) Paralegal Studies, California - Before his kidneys failed Richard said "I cannot begin to thank you all for this honor. The last year has been a struggle, but God has truly blessed me with this scholarship. Prayers and thanks go out to all of you from my wife and myself." At DSF, sadness is oftentimes part of our mission.
